CUMULATIVE SUBJECT INDEX

VOLUME 12, 1957

* Indicates original article

A

ACCIDENTS
—childhood accidents and their prevention, 259
ACNE VULGARIS
—clinical observations on the use of erythromycin in acne vulgaris and some pyogenic skin eruptions, 97
ACTA ENDROCRINOLOGICA
—contents of November 1956 number, 5
ALARM REACTION
—significance of the alarm reaction in human pathology, especially in pediatrics, 165
ALBUMIN
—seroprotein metabolism in the malnourished child albumin, 164
AMINOPHYLLINE
suppositories:
—toxic effects of half-strength aminophylline suppositories in asthmatic children, 108
AMNIOTIC FLUID
—analysis of amniotic fluid cells for diagnosis of foetal sex, 11
AMPHOTERICIN B
—therapy of oral thrush, a comparative evaluation of gentian violet, mycostatin, and amphotericin B, 230
—treatment of cutaneous candidiasis in infancy and childhood with nystatin and amphotericin B, 97
ANEMIA
hemolytic
—effect of vitamin K and naphthalene metabolites on glutathione metabolism of erythrocytes from normal newborns and patients with naphthalene hemolytic anemia, 214
hypoplastic:
—congenital hypoplastic anemia, 103
iron deficiency:
—intramuscular iron for the treatment of iron deficiency anemia in infancy, 37
sickle cell:
—aplastic crisis of sickle cell disease, occurrence in several members of families within a short period of time, 101
—crisis in sickle cell anemia, hematologic studies, 104
ANNOUNCEMENTS
—American Association for Cleft Palate Rehabilitation, meeting, 150
—American Pediatric Directory, 79
—Antibiotics Annual 1956–1957, 20, 180
—Course in clinical hypoxia being offered, 209
—Fifth Annual Symposium on Antibiotics, 92, 163
—publication of Symposium on Medicine and Writing, 177
—refresher courses at The Children's Hospital of Philadelphia, 17
—Sister Kenny Foundation announces scholarships, 228
—Transactions of 8th International Congress of Pediatrics available, 10
ANOXIA
—vascular anomalies of mouse fetuses exposed to anoxia during pregnancy, 196
ANTHELMINTHICS
—low toxicity anthelminthics, 188
ANTIBIOTICS
—Antibiotics Annual 1956–1957, Proceedings of the Fourth Annual Symposium on Antibiotics, a review, 93
broad-spectrum:
—value of broad-spectrum antibiotics in the treatment of pertussis, 95
combinations:
—combined antibiotic therapy (reprinted from Antibiotic Medicine & Clinical Therapy), 201*
—mixtures of antibiotics, 178
in milk:
—observations on antibiotics in a market milk supply and the effect of certain antibiotics on the keeping quality of milk, 62
in surgery:
—yeast growth during preoperative preparation of the colon with antibiotics, 231
new:
—ristocetin, a new antibiotic—laboratory and clinical studies, preliminary report, 102
—some laboratory and clinical experiences with a new antibiotic, vancomycin, 38
resistance to:
—studies on the incidence and distribution of antibiotic-resistant staphylococci, 106
sensitivity to:
—antibiotic sensitivity of Mycobacterium kansasii, 101
—in vitro sensitivity of bacteria to novobiocin, Bryamycin, oleandomycin, vancomycin, amphomycin, bacitracin, and Synnematin B, 99
—susceptibility of pneumococci to eleven antibiotics in vitro, 106
therapeutic use:
—antibiotic treatment of enteral or parenteral Salmonella infections, 40
—Candida infections in children with neoplastic disease, influence of therapy with antibiotics and steroid hormones, 50
—sciatic neuropathy in infants related to antibiotic injections, 194
APPETITE
—enhancement of conventional therapy for appetite stimulation, 142*

ARTHRITIS
rheumatoid:
simultaneous occurrence of rheumatoid arthritis and agammaglobulinemia, 121
ASCOSIN
evaluation of Ascosin in the treatment of tinea capitis, 101
ASTHMA
toxic effects of half-strength aminophylline suppositories in asthmatic children, 103
ATOMIC RADIATION
genetic effects of atomic radiation, 30

B

BACTERIA
sensitivity:
in vitro sensitivity of bacteria to novobiocin, Bryamycin, oleandomycin, vancomycin, amphomycin, bacitracin and Synnematin B, 99
BALANTIDIASIS
balantidiasis, a review and report of cases, 42
BCG *See Tuberculosis, Vaccination*
BENZATHINE PENICILLIN G *See Penicillin G*
BILIRUBIN *See Hyperbilirubinemia*
BLOOD
blood prothrombin, proconvertin and proaccelerin in normal infancy, questionable relationship to vitamin K, 236
red cells See Erythrocytes
specimens:
psychology of drawing blood specimens from children, 197
BLOOD VESSELS
vascular anomalies of mouse fetuses exposed to anoxia during pregnancy, 196
BOOK REVIEWS
Advances in internal medicine, vol. VIII, 130
Cellular mechanisms in differentiation and growth, 200
Die Eigenart der kindlichen Hirntatigkeit, 130
Directory of medical specialists holding certification by American Specialty Boards, 263
Dutton series (The) on sex education, 264
Four decades of action for children: A short history of the Children's Bureau, 68
Harvey Lectures, 1955–1956, 263
Heritable disorders of connective tissue, 130
Kinderarztliche Notfallfibel, 67
Laboratory applications in clinical practice, 264
Mental health and infant development, 67
Obstetrical nursing, ed. 4, 200
Patterns of mothering: Maternal influence during infancy, 66
Pediatrics, 200
Pediatric nursing, 66
Physical growth of children (The): An appraisal of studies 1950–1955, 67
Placement (The) of adoptive children, 263
Premature infants, 67
Radiology of the alimentary tract in infants, 263
Speech correction at home, 264
BRONCHITIS *See Laryngotracheobronchitis*
BURNS
emergency treatment of childhood skeletal trauma and burns, 264
treatment of burns in children, 199

C

CALVES
Escherichia coli as a cause of diarrhea in calves, 24
CANDIDA
Candida infections in children with neoplastic disease, and influence of antibiotics and steroid hormones, 50
CANDIDA ALBICANS
isolation and identification of candida albicans, 232
CANDIDIASIS
candidiasis (moniliasis), frequent companion, occasional foe, 229
laboratory and clinical studies on candidiasis in the newborn infant, 117
treatment of cutaneous candidiasis in infancy and childhood with nystatin and amphotericin B, 97
treatment:
use of nystatin for the treatment of candidiasis of the skin and mucous membranes, 230
CAPILLARIA HEPATICA
Capillaria hepatica, report of fourth case of true human infestation, 192
CAT SCRATCH FEVER
cat scratch fever, 169
CELOTIN
Celotin (PM-396) in the treatment of epilepsy, 194
CEREBRAL PALSY
ophthalmological findings in children with cerebral palsy, 194
CEREBROSPINAL FLUID
low cerebrospinal fluid glucose associated with meningeal neoplasia, 256
CEYLON
infant feeding in Ceylon, 208*
CHLORIDE
studies on cystic fibrosis of the pancreas, a simple test for the detection of chloride on the skin, 44
CHLORAMPHENICOL
five years' experience with chloramphenicol, 99
CHLORPROMAZINE
chlorpromazine therapy in children at the Florida Farm Colony, 108
CHOLEDOCHAL CYSTS
congenital choledochal cysts, a report of three cases and discussion of etiology, 128
CHROMATIN
sex:
sex-chromatin in oral smears, 41

COLITIS
ulcerative:
— chronic ulcerative colitis in childhood, 187
COLON
surgery:
— yeast growth during preoperative preparation of the colon with antibiotics, 231
COLON BACILLUS — *See Escherichia Coli*
CORTICOTROPIN
— a clinical study of the use of cortisone, hydrocortisone, and corticotropin in the treatment of seriously ill patients with infections, 100
CORTISONE
— a clinical study of the use of cortisone, hydrocortisone, and corticotropin in the treatment of seriously ill patients with infections, 100
COXSACKIE VIRUSES — *See Viruses, Coxsackie*
CRETINISM
— defects in the biosynthesis of thyroid hormone in congenital goitrous cretinism, 212
CROUP
— recovery of a new type of myxovirus from infants with croup, 246
CYTOMEGALIC INCLUSION DISEASE
— generalized cytomegalic inclusion disease, 256

D

DEAFNESS
nerve:
— hereditary renal disease associated with nerve deafness and ocular lesions, 238
DIABETES MELLITUS
— insulin-producing capacity of the pancreas in children with diabetes mellitus, 210
treatment:
— progress report of American Diabetes Association on orally effective hypoglycemic sulfonylureas, 52
DIARRHEA
infantile:
— chronic nonspecific diarrhea in infants and children treated with diiodohydroxy quinodine, 13
— control of epidemic diarrhea of the newborn in hospital nurseries and pediatric wards, 24
— diarrhea of newborn and older infants due to viruses, 26
— epidemic diarrhea in newborn and older infants caused by a cytopathogenic enteric virus, 248
— Escherichia coli associated with infantile diarrhea, 23
— infantile diarrhea and Escherichia coli, 23
— role of Paracolobactrum and Proteus in infantile diarrhea, 25
DIET
— comparison of prematures fed high and low protein diets, 220
— nutritive value of a representative good American diet with and without milk, 151*
— weight gains in the first four weeks of infancy, a comparison of three diets, 15
DIHYDROXYQUINOLINE
— chronic nonspecific diarrhea in infants and children treated with diiodohydroxyquinodine, 13

E

EARS — *See Otitis*
ECZEMA
— eczema associated with thrombocytopenic purpura and purulent otitis media, report of five fatal cases, 121
EGYPT
— infantile liver cirrhosis of Egypt, 252
ELECTROCARDIOGRAPHY
fetal:
— prenatal fetal electrocardiography, 58
ELECTROENCEPHALOGRAPHY
— electroencephalographic studies on children having measles with no clinical evidence of involvement of the central nervous system, 56
ENDOCARDITIS
bacterial:
— prevention of rheumatic fever and bacterial endocarditis through control of streptococcal infections, 82
— treatment of bacterial endocarditis, 243
ENTEROBACTERIACEAE
— bacterial hemagglutination test for the demonstration of antibodies to enterobacteriaceae, 25
ENTEROCOCCI
— in vitro sensitivity of erythromycin-resistant strains of staphylococci and enterococci to vancomycin and novobiocin, 237
EPILEPSY
treatment:
— Celotin (PM 346) in the treatment of epilepsy, 104
ERYTHEMA INFECTIOSUM
— a new viral agent associated with erythema infectiosum, 192
ERYTHROBLASTOSIS FETALIS
— induction of labor in the management of erythroblastosis fetalis, 1*
— sudden induction of labor in the management of erythroblastosis fetalis, 125
ERYTHROCYTES
— comparative study of the glycolytic and pentose phosphate pathway in red blood cells of newborns, prematures, infants and children, 222
— effect of vitamin K and naphthalene metabolites on glutathione metabolism of erythrocytes from normal newborns and patients with naphthalene hemolytic anemia, 214
— erythrocyte autosensitization, 105
— red blood cell destruction, production, and splenic sequestration in patients with "mild" hereditary spherocytosis, 222
— ultrastructure of erythrocyte membranes in thalassemia major and minor, 35

ERYTHROMYCIN
—clinical observations on the use of erythromycin in acne vulgaris and some pyogenic skin eruptions, 97
responsiveness of commonly encountered respiratory infections to oral administration of erythromycin, 96
use of erythromycin as prophylactic, 96
resistance to:
in vitro sensitivity of erythromycin-resistant strains of staphylococci and enterococci to vancomycin and novobiocin, 237
ESCHERICHIA COLI
comparative frequency of detection of enteropathogenic E. coli, salmonella and shigella in rectal swab cultures from infants and young children, 116
Escherichia coli associated with infantile diarrhea, 23
enteropathogenic Escherichia coli serotypes, 22
Escherichia coli as a cause of diarrhea in calves, 24
infantile diarrhea due to Escherichia coli, 23
EYES
ophthalmologic findings in children with cerebral palsy, 191
diseases:
hereditary renal disease associated with nerve deafness and ocular lesions, 238

F

FAMILY
composition of the American family, 62
FECES
value of microscopic examination of the stool for extracellular starch in the diagnosis of disease states, 247
flora:
comparative frequency of detection of enteropathogenic E. coli, salmonella and shigella from rectal swab cultures from infants and young children, 116
study of the effect of tetracycline plus nystatin on aerobic fecal flora as compared with tetracycline alone, 97
FETUS
electrocardiography:
prenatal fetal electrocardiography, 58
hemorrhage:
possible fetal hemorrhage into maternal circulation, report of two cases, 253
sex:
analysis of amniotic fluid cells for diagnosis of foetal sex, 11
FIBROELASTOSIS
congenital endocardial fibro-elastosis, a clinical and pathologic investigation of those cases without associated cardiac malformations, including report of two familial instances, 37
endocardial fibro-elastosis, endocardial fibro-elastosis associated with congenital malformations of the heart, 36
FIBRINOGEN
concentration of fibrinogen in the plasma of normal newborn infants, 181
FUMAGILLIN
—fumagillin, accepted for New and Nonofficial Drugs, report of Council on Drugs, 185

G

GAMMA GLOBULIN
agammaglobulinemia and hypogammaglobulinemia, the first five years, 257
hyperimmune coccinal gamma globulin, source, evaluation, and use in prophylaxis and therapy, 17
simultaneous occurrence of rheumatoid arthritis and agammaglobulinemia, 124
GENITOURINARY TRACT
tumors:
genito-urinary tumors in children, 226
GENTIAN VIOLET
therapy of oral thrush, a comparative evaluation of gentian violet, mycostatin, and amphotericin B, 230

H

HEART *See also Ventricular Septum*
malformations:
congenital endocardial fibro-elastosis, a clinical and pathologic investigation of those cases without associated cardiac malformations, including report of two familial instances, 37
endocardial fibro-elastosis, associated with congenital malformations of the heart, 36
murmurs:
innocent (functional) cardiac murmur in children, 183
HEART DISEASE. *See Myocarditis*
HEMAGGLUTINATION TEST
bacterial hemagglutination test for the demonstration of antibodies to enterobacteriaceae, 25
HEMOGLOBIN
data on the occurrence of hemoglobin C and other abnormal hemoglobins in some African populations, 34
in vitro crystallization of hemoglobin occurring in citrated blood from patients with hemoglobin C, 35
fetal:
measurement of fetal hemoglobin in newborn infants, correlation with gestational age and intrauterine hypoxia, 245
HEMOSIDEROSIS
pulmonary:
idiopathic pulmonary hemosiderosis, review and report of three cases, 182
HERNIA
inguinal:
recognition and management of inguinal hernia in infants and children, 201
HEPATITIS
viral:
problem of viral hepatitis, 90
HIP
dysplasia:
diagnosis of congenital dysplasia of the hip in the newborn infant, 122

HOME CARE
— home care for sick children, 170
HORMONES
steroid:
— Candida infections in children with neoplastic disease, and therapy with antibiotics and steroid hormones, 50
HOSPITALS
— control of epidemic diarrhea of the newborn in hospital nurseries and pediatric wards, 24
— hospitalization of young people, 198
HYALINE MEMBRANE
— aetiological features of hyaline membrane diseases of the newborn, 174
HYDROCORTISONE
— a clinical study of the use of cortisone, hydrocortisone, and corticotropin in the treatment of seriously ill patients with infections, 100
HYPERCALCEMIA
— severe idiopathic hypercalcemia in infancy, 121
HYPERBILIRUBINEMIA
— studies in hyperbilirubinemia, hyperbilirubinemia of the newborn unrelated to isoimmunization, 195
HYPERCHOLESTEROLEMIA
— treatment of familial hypercholesterolemia with a plant sterol, 112
HYPERNATREMIA
— renal tubular lesions in hypernatremia, 220
HYPEROSTOSIS
cortical:
— infantile cortical hyperostosis, report of seventeen cases, 123
HYPERTENSION
— parenteral administration of reserpine in the treatment of hypertension due to acute and chronic nephritis, clinical and renal hemodynamic studies, 189
HYPONATREMIA
— symptomatic hyponatremia in acute infections of the central nervous system, 58
HYPOTHYROIDISM
— mental prognosis in hypothyroidism of infancy and childhood, a review of 128 cases, 187

I

INCUBATORS
— device for controlling oxygen concentration in infant incubators, 173
INDIA
— malnutrition among infants and young children in India, 240
INFANT FEEDING
— infant feeding in Burma, 11*
— infant feeding in Ceylon, 208*
— infant feeding in the USSR, 137*
— water requirement in relation to osmolar load as it applies to infant feeding, 195
INFANTS
newborn — See Newborn
postmature — See Postmaturity
weight:
— weight gains in the first four weeks of infancy, and a comparison of three diets, 45
INFECTIONS
— a clinical study of the use of cortisone, hydrocortisone, and corticotropin in the treatment of seriously ill patients with infections, 100
— properdin levels in infections and noninfectious diseases, 126
INJURIES
— emergency treatment of childhood skeletal trauma and burns, 264
INTESTINES
flora:
— effect of oleandomycin alone and in combination with neomycin on intestinal microflora, 100
IRON
— intramuscular iron for the treatment of iron deficiency anemia in infancy, 37

K

KIDNEY
diseases — See also Nephrosis
— hereditary renal disease associated with nerve deafness and ocular lesions, 238
— renal tubular lesions in hypernatremia, 220
KWASHIORKOR
— kwashiorkor in children and its response to protein therapy, 239

L

LACTATION
— a clinical study of lactation, 175
LARYNGOTRACHEOBRONCHITIS
— observations on the etiology of acute laryngotracheobronchitis, Toronto, 1953–1954, 48
LEPTOSPIROSIS
treatment:
— tetracycline in the treatment of leptospirosis, 95
LEUKOENCEPHALITIS
— subacute sclerosing leukoencephalitis, Van Bogaert type, 121
LIVER
diseases:
— a distinctive type of biliary cirrhosis of the liver associated with cystic fibrosis of the pancreas, recognition through signs of portal hypertension, 45
— infantile liver cirrhosis of Egypt, 252
surgery:
— right lobectomy of the liver in children, 65

M

MALNUTRITION
— malnutrition among infants and young children in India, 240
MAST CELLS
— generalized mast cell disease and urticaria pigmentosa, report of a case, 193
— mast cell leukemia presenting as urticaria pigmentosa, report of a case, 193

MEASLES
— electroencephalographic studies on children having measles with no clinical evidence of involvement of the central nervous system, 56
MEDICAL JOURNALS
— a new trend in medical journalism, MD medical newsmagazine launched in January, 129
MEDICAL WRITING
Pediatric anthology (quotation from Dr. Félix Martí-Ibáñez), 131
MENINGES
tumors:
— low cerebrospinal fluid glucose associated with meningeal neoplasia, 256
MENINGITIS
aseptic:
— aseptic meningitis, evidence for the etiologic role of Coxsackie-B and "orphan" viruses, 246
— clinical features of aseptic meningitis caused by Coxsackie-B virus, 124
— an epidemic of aseptic meningitis due to an enteric virus related to the ECHO virus group, 246
— isolation of Echo virus type 6 during outbreak of aseptic meningitis, 56
purulent:
— tetracycline serum and cerebrospinal fluid levels in acute purulent meningitis, 95
tuberculous:
— treatment of tuberculous meningitis, 172
— tuberculous meningitis in Filipino children, 250
MENINGOENCEPHALITIS
— acute aseptic myocarditis and meningoencephalitis in the newborn child infected with Coxsackie virus group B, type 3, 109
— mumps meningoencephalitis, a clinical review of 119 cases with one death, 243
MENTAL DISEASE
— congenital syphilis, a follow-up study with reference to mental abnormalities, 119
METABOLISM
— serum protein metabolism in the malnourished child, albumin, 164
MYTROMYCIN — *See Oleandomycin*
MICROSCOPE
electron:
— electron microscopic pathology of the various forms of the nephrotic syndrome, 225
MIGRAINE
abdominal:
— abdominal migraine in children, 170
MILK — *See also Lactation*
— nutritive value of a representative good American diet with and without milk, 151*
— observations on antibiotics in a market milk supply and the effect of certain antibiotics on the keeping quality of milk, 62
contaminated:
— contaminated milk, clinical aspects of the paratyphoid "B" epidemic in Lancaster County, 110
— growth of Staphylococcus aureus in milk with special reference to food poisoning, 259
MONILIASIS — *See also Candidiasis*
treatment:
— treatment of cutaneous moniliasis in pediatrics with nystatin, 231
— treatment of oral moniliasis in infants and children with nystatin, 231
MOTHERS
— maternal deprivation, 61, 69
MUMPS
— mumps, practical advances in diagnosis and treatment (editorial), 135*
complications:
— mumps meningoencephalitis, a clinical review of 119 cases with one death, 243
MUSCLES
voluntary:
— diseases of voluntary muscles in infancy and childhood, 6*
MUSCULAR DYSTROPHY
— muscular dystrophy, history, clinical status, muscle strength, and biopsy findings, 54
— muscular dystrophy, radiologic findings in relation to severity of disease, 55
— muscular dystrophy, serum and blood studies and other laboratory indices, 55
MYCOBACTERIUM KANSASII
— antibiotic sensitivity of Mycobacterium kansasii, 101
MYCOSTATIN
— therapy of oral thrush, a comparative evaluation of gentian violet, mycostatin, and amphotericin B, 230
MYOCARDITIS
— acute aseptic myocarditis and meningoencephalitis in the newborn child infected with Coxsackie virus group B, type 3, 109

N

NEOMYCIN
— effect of oleandomycin alone and in combination with neomycin on intestinal microflora, 100
NEOPLASTIC DISEASES
— Candida infections in children with neoplastic disease, influence of therapy with antibiotics and steroid hormones, 50
NEPHRITIS
— parenteral administration of reserpine in the treatment of hypertension due to acute and chronic nephritis, clinical and renal hemodynamic studies, 139
NEPHROSIS
— electron microscopic pathology of the various forms of the nephrotic syndrome, 225
— prognostic implications of the estimation of the severity of childhood nephrosis, 215

NERVOUS SYSTEM
central:
—symptomatic hyponatremia in infections of the central nervous system, 58
NEUROBLASTOMA
—thoracic neuroblastoma, 128
NEUTROPENIA
—chronic benign neutropenia in infancy and early childhood, report of a case with a review of the literature, 105
NEWBORN
—acute aseptic myocarditis and meningoencephalitis in the newborn child infected with Coxsackie virus group B, type 3, 109
—aetiological features of hyaline membrane disease of the newborn, 171
—concentration of fibrinogen in the plasma of normal newborn infants, 181
—diagnosis of congenital dysplasia of the hip in the newborn infant, 122
—epidemiologic characteristics of certain phage-types of staphylococci in a newborn nursery, 240
—hereditary spherocytosis in the neonatal period, diagnosis, incidence, and treatment, 105
—laboratory and clinical studies on candidiasis in the newborn infant, 117
—hemolytic streptococci on the neonatal umbilicus, 58
—measurement of fetal hemoglobin in newborn infants, correlation with gestational age and intrauterine hypoxia, 235
—studies in hyperbilirubinemia, hyperbilirubinemia of the newborn unrelated to isoimmunization, 195
nutrition:
—maternal and newborn nutrition studies at Philadelphia Lying-In Hospital, newborn studies, clinical findings at birth and one month for babies of mothers receiving nutrient supplements, 254
surgery:
—optimal time for surgery in the newborn period, 139*
NOCARDIOSIS
—nocardiosis in childhood, 118
NOVOBIOCIN
—novobiocin, a limited clinical and bacteriologic study of its use in infants and children with Staphylococcus aureus infections, 93
—novobiocin in the treatment of urinary tract infections, 99
sensitivity to:
—in vitro sensitivity of erythromycin-resistant strains of staphylococci and enterococci to vancomycin and novobiocin, 237
NUTRITION
—maternal and newborn nutrition studies at Philadelphia Lying-In Hospital, newborn studies, clinical findings at birth and one month for babies of mothers receiving nutrient supplements, 254
NYSTATIN
—discovery of nystatin, 232
—a study of the effect of tetracycline plus nystatin on aerobic fecal flora as compared to tetracycline alone, 97
—treatment of cutaneous candidiasis in infancy and childhood with nystatin and amphotericin B, 97
—treatment of cutaneous moniliasis in pediatrics with nystatin, 231
—treatment of oral moniliasis in infants and children with nystatin, 231
—use of nystatin for candidiasis of the skin and mucous membranes, 230

O

OBESITY
—prevalence and incidence of obesity in a cross-section of elementary and secondary school children, 189
—relative importance of inactivity and overeating in the energy balance of obese high school girls, 190
OLEANDOMYCIN
—effect of oleandomycin alone and in combination with neomycin on intestinal microflora, 100
—laboratory studies of oleandomycin (Matromycin), 39
OTITIS
external:
—external otitis in children, 74*
media:
—eczema associated with thrombocytopenia purpura and purulent otitis media, report of five fatal cases, 121
OXYGEN
—device for controlling oxygen concentration in infant incubators, 173
—indications for oxygen therapy in small premature infants, 213

P

PARACOLOBACTRUM
—role of Paracolobactrum and Proteus in infantile diarrhea, 25
PANCREAS
—insulin-producing capacity of the pancreas in children with diabetes mellitus, 240
diseases:
—a distinctive type of biliary cirrhosis of the liver associated with cystic fibrosis of the pancreas, recognition through signs of portal hypertension, 15
—physiochemical differences of mucoproteins in duodenal fluid of patients with cystic fibrosis of the pancreas and controls, clinical aspects, 188
—a screening test for cystic fibrosis of the pancreas using analysis of saliva, 109
—studies in cystic fibrosis, a simple test for the detection of excessive chloride on the skin, 44
PARATYPHOID
—contaminated milk, clinical aspects of the paratyphoid "B" epidemic in Lancaster County, 110

PATENT DUCTUS ARTERIOSUS
patent ductus arteriosus with reversal of flow, clinical study of ten children, 36
PEDIATRICS
new Pediatric Pathology Registry (editorial), 165
Pediatric anthology (quotation from Dr. Félix Martí-Ibáñez on medical writing), 131
Pediatric anthology (quotation from Mental health and infant development, edited by Kenneth Soddy), 69
PENICILLIN
effect of penicillins V and G on carriers of various groups of streptococci in a children's home, 136
observations on an epidemic of streptococcal infections and recurrences of rheumatic fever among children treated with penicillin, 247
PENICILLIN G
streptococcal prophylaxis with oral benzathine penicillin G, reports of a four year follow-up, 91
PENICILLIN V
penicillin V in the prophylaxis of disabling respiratory infections in susceptible children, 94
penicillin V therapy of scarlet fever and acute streptococcal pharyngitis, clinical and serological response, 91
PERIODIC SYNDROME
periodic syndrome, 120
PERTUSSIS
treatment:
value of broad-spectrum antibiotics in the treatment of pertussis, 95
PHARYNGITIS
streptococcal:
penicillin V therapy of scarlet fever and acute streptococcal pharyngitis, clinical and serological response, 91
PHENYLKETONURIA
nutritional and clinical pitfalls in the treatment of phenylketonuries by means of low phenylalanine diets, 219
variability in manifestations of untreated patients with phenylketonuria (phenylpyruvicaciduria), 253
PHILIPPINES
tuberculous meningitis in Filipino children, 250
PLACENTA
dysfunction:
postmaturity and the placental dysfunction syndrome, 57
PLANTS
sterols:
treatment of familial hypercholesterolemia with a plant sterol, 112
PLATELETS
study of transfused platelets in a case of congenital hypoplastic thrombocytopenia, 35
PLEURAL EFFUSION
differential diagnosis of pleural effusion by biochemical methods, 171
therapy of pleural effusion in children, 171
PNEUMOCYSTIS CARINII
pneumocystis carinii, etiologic agent of interstitial plasma cell pneumonia of premature and young infants, 190
PNEUMONIA
interstitial:
pneumocystis carinii, etiologic agent of interstitial plasma cell pneumonia of premature and young infants, 190
POISONING
public health aspects of poisoning, 261
POLIOMYELITIS
poliomyelitis and prophylactic inoculation against diphtheria, whooping cough, and smallpox, 260
surveillance of poliomyelitis in the United States during 1956, a preliminary report, 86
transplacental transmission of poliomyelitis, 243
immunity to:
comparison of the immunity to poliomyelitis in a postepidemic and a neighboring nonepidemic district in Sweden, 47
seasonal incidence:
is pollen a contributing factor in the seasonal incidence of poliomyelitis?, 47
vaccination:
antibody response of very young infants to poliomyelitis vaccine, 211
antigenic potency of poliomyelitis vaccine, influence on degree and duration of vaccine effect, 46
present status of poliomyelitis vaccination program, 89
POLLEN
is pollen a contributing factor in the seasonal incidence of poliomyelitis?, 47
POLYSACCHARIDES
nature of the properdin system and its interaction with polysaccharide complexes, 125
PORTAL HYPERTENSION
a distinctive type of biliary cirrhosis of the liver associated with cystic fibrosis of the pancreas, recognition through signs of portal hypertension, 45
POSTMATURITY
postmaturity and the placental dysfunction syndrome, 57
PREMATURITY
comparison of prematures fed high and low protein diets, 220
health of the ex-premature, a field for further study, 213
indications for oxygen therapy in small premature infants, 213
PROGERIA
progeria, report of a case with cephalometric roentgenograms and abnormally high concentrations of lipoproteins in the serum, 53
PROPERDIN
nature of the properdin system and its interaction with polysaccharide complexes, 125
properdin levels in infections and noninfectious diseases, 126

PROTEIN — *See Diet*
therapy:
kwashiorkor in children and its response to protein therapy, 239
PROTEUS
role of Paracolobactrum and Proteus in infantile diarrhea, 25
PURPURA
purpura in childhood, observations in 187 cases, 181
thrombocytopenic:
eczema associated with thrombocytopenic purpura and purulent otitis media, report of five fatal cases, 121
PYLORIC STENOSIS
congenital pyloric stenosis, experience in diagnosis and therapy, 128

R

RABIES
treatment:
indications for anti-rabies treatment, 112
RESERPINE
parenteral administration of reserpine in the treatment of hypertension due to acute and chronic nephritis, clinical and renal hemodynamic studies, 189
RESPIRATORY TRACT
infections:
penicillin V in the prophylaxis of disabling respiratory infections in susceptible children, 94
responsiveness of commonly encountered respiratory infections to oral administration of erythromycin, 96
RETINA
diseases:
heredo-retinopathia congenitalis, monohybrida recessiva autosomatic, a congenital-statistical study, 238
RHEUMATIC FEVER
observations on an epidemic of streptococcal infections and recurrence of rheumatic fever among children treated with penicillin, 247
prophylaxis:
prevention of rheumatic fever and bacterial endocarditis through control of streptococcal infections, 82
RINGWORM
management of ringworm of scalp, 71*
RISTOCETIN
ristocetin, a new antibiotic—laboratory and clinical studies, preliminary report, 102
RUMINATION
rumination, a psychosomatic disorder of infancy, 211
RUSSIA
infant feeding in the USSR, 137*

S

SALMONELLA
antibiotic treatment of enteral or parenteral Salmonella infections, 49
comparative frequency of detection of enteropathogenic E. coli, salmonella and shigella in rectal swab cultures from infants and young children, 116
epidemic of Salmonella panama infection in infants, 21
Salmonella and salmonellosis, 21
SALMONELLOSIS
salmonellosis in infants and children, a study of 100 cases, 244
SCARLET FEVER
treatment:
penicillin V therapy of scarlet fever and acute streptococcal pharyngitis, clinical and serological response, 94
SCHOOL CHILDREN
prevalence and incidence of obesity in a cross-section of elementary and secondary school children, 189
relative importance of inactivity and overeating in the energy balance of obese high school girls, 140
SCIATIC NERVE
sciatic neuropathy in infants related to antibiotic injections, 194
SHIGELLA
comparative frequency of detection of enteropathogenic E. coli, salmonella and shigella in rectal swab cultures from infants and from young children, 116
SKIN
diseases — See also Candidiasis
clinical observations on the use of erythromycin in acne vulgaris and some pyogenic skin eruptions, 97
hemangiomas:
a follow-up study of hemangiomas of the skin treated and untreated, 127
SODIUM — *See Hyponatremia*
SPHEROCYTOSIS
hereditary spherocytosis in the neonatal period, diagnosis, incidence, and treatment, 165
red blood cell destruction, production, and splenic sequestration in patients with "mild" hereditary spherocytosis, 222
SPINA BIFIDA
problem of spina bifida (a Symposium), 167
SPLEEN
congenital absence of the spleen, 235
STAPHYLOCOCCI
current problem of staphylococcal infections, 59
epidemiologic characteristics of certain phage-types of staphylococci in a newborn nursery, 240
growth of Staphylococcus aureus in milk with special reference to food poisoning, 259
in vitro sensitivity of erythromycin-resistant strains of staphylococci and enterococci to vancomycin and novobiocin, 237
novobiocin, a limited clinical and bacteriologic study of its use in infants and children with Staphylococcus aureus infections, 93
studies on the incidence and distribution of antibiotic-resistant staphylococci, 106

STARCH
value of microscopic examination of the stool for extracellular starch in the diagnosis of disease states, 217
STEROLS *See Plants, sterols*
STOOLS *See Feces*
STREPTOCOCCI
effect of penicillin V and G on carriers of various groups of streptococci in a children's home, 136
hemolytic streptococci on the neonatal umbilicus, 58
observations on an epidemic of streptococcal infections and recurrences of rheumatic fever among children treated with penicillin, 247
prevention of rheumatic fever and bacterial endocarditis through control of streptococcal infections, 82
streptococcal prophylaxis with benzathine penicillin G, reports of a four year follow-up, 94
SULFAMETHOXYPYRIDAZINE
absorption and excretion of sulfamethoxypyridazine, a new long-acting antibacterial sulfonamide, 107
clinical evaluation of sulfamethoxypyridazine, 101
SULFONYLUREAS
hypoglycemic:
progress report of American Diabetes Association on orally effective hypoglycemic sulfonylureas, 52
SULFOSUCCINATE
pediatric use of dioctyl sodium sulfosuccinate, 107
SURGERY
optimal time for surgery in the newborn period, 139
SYPHILIS
congenital:
congenital syphilis, a follow-up study with reference to mental abnormalities, 119
prevention of congenital syphilis by treatment of syphilis in pregnant women, 120

T

TETRACYCLINE
absorption of oily and aqueous preparations of tetracycline in children, 103
new rapidly absorbed complex salt of tetracycline, 107
a study of the effect of tetracycline plus nystatin on aerobic fecal flora as compared to tetracycline alone, 97
tetracycline serum and cerebrospinal fluid levels in acute purulent meningitis, 95
tetracycline in the treatment of leptospirosis, 95
THALASSEMIA
ultrastructure of erythrocyte membranes in thalassemia major and minor, 35
THALLOTOXICOSIS
thallotoxicosis, neurologic manifestations and methods of treatment, 224
THROMBOCYTOPENIA
study of transfused platelets in a case of congenital hypoplastic thrombocytopenia, 35
THRUSH
oral:
therapy of oral thrush, a comparative evaluation of gentian violet, mycostatin and amphotericin B, 230
THYROID
cancer:
carcinoma of the thyroid in childhood, 63
hormone:
defects in the biosynthesis of thyroid hormone in congenital goitrous cretinism, 212
TINEA CAPITIS
evaluation of Ascosin in the treatment of tinea capitis, 101
TRANQUILIZING DRUGS
use of tranquilizing drugs in children (a Symposium), 176
TRAUMA *See Injuries*
TREPONEMA
treponemal diseases of children in the tropics, 18
TUBERCULOSIS *See also Meningitis, tuberculous*
dynamic aspects of the pathology and bacteriology of tuberculous lesions, 26
immunopathology of tuberculosis, 29
endobronchial:
course and prognosis of endobronchial tuberculosis in children, 33
treatment:
management of special problems in the chemotherapy of tuberculosis in infants and children, 32
present status of the treatment of tuberculosis, 51
systematic treatment of primary tuberculosis, 31
tuberculostatic treatment of children, 171
vaccination:
usual and unusual reactions to BCG inoculation in children, 28
vaccination against tuberculosis, clinical aspects, 27

U

URINARY TRACT
infections:
novobiocin in the treatment of urinary tract infections, 99
URTICARIA PIGMENTOSA
generalized mast cell disease and urticaria pigmentosa, report of a case, 193
mast cell leukemia presenting as urticaria pigmentosa, report of a case, 193
USSR *See Russia*

V

VACCINATION *See also Tuberculosis, vaccination*
poliomyelitis and prophylactic inoculation against diphtheria, whooping cough, and smallpox, 260

VANCOMYCIN
—clinical and laboratory studies, 98
—some laboratory and clinical experiences with a new antibiotic, vancomycin, 38
sensitivity to:
—in vitro sensitivity of erythromycin-resistant strains of staphylococci and enterococci to vancomycin and novobiocin, 237
VENTRICULAR SEPTUM
—anatomic and pathologic studies in ventricular septal defect, 181
VIRUSES
—aseptic meningitis, evidence for the etiologic role of Coxsackie B and "orphan" viruses, 246
—diarrhea of newborn and older infants due to viruses, 26
—an epidemic of aseptic meningitis due to an enteric virus related to the ECHO virus group, 216
—a new viral agent associated with erythema infectiosum, 192
—problem of viral hepatitis, 90
—recovery of a new type of myxovirus from infants with croup, 246
Coxsackie:
—acute aseptic myocarditis and meningoencephalitis in the newborn child infected with Coxsackie virus group B, type 3, 109
—clinical features of aseptic meningitis caused by Coxsackie-B virus, 124
ECHO:
—isolation of Echo virus type 6 during outbreak of seasonal aseptic meningitis, 56
enteric:
—clinical association of enteric viruses with particular reference to agents exhibiting properties of the ECHO group, 247
—epidemic diarrhea in newborn and older infants caused by a cytopathogenic enteric virus, 218
VITAMIN K
—blood prothrombin, proconvertin and proaccelerin in normal infancy, questionable relationship to vitamin K, 236
—effect of vitamin K and naphthalene metabolites in glutathione metabolism of erythrocytes from normal newborns and patients with naphthalene hemolytic anemia, 211

W

WARTS
—management of warts in children, 77*
WATER
—water requirement in relation to osmolar load as it applies to infant feeding, 195
WEIGHT
—weight gains in the first four weeks of infancy, a comparison of three diets, 45

Y

YEASTS
—yeast growth during preoperative preparation of the colon with antibiotics, 231

Z

ZINC
—metabolic role of zinc, 18
